Total Logistic Solutions

Any carriage of goods for import or export is closely linked to the customs control of goods crossing national borders. Properly completed customs documents help to prevent truck delays at borders places of departure and destination and allows you to avoid extra fees and waste of time.

For quality and comprehensive customer service, we offer coverage of the transit operations with our own general transit guarantee, own warehouse under customs control and preparation of all necessary documents. The in-depth knowledge of customs legislation allows us to offer an optimal solution for the customer.

Our experience has been entrusted by not a few emerging and marketed companies.

We have gained the confidence of our customers as with the professional training of the employees and the quality of the product offered so and with our discretion.

We hold a license for the international carriage of goods by road at a foreign expense for a fee from the European Community.

**We offer the following services:**

- Customs Agency activities;
- Preparation of all kinds of customs documents;
- Customs clearance of courier and postal shipments;
- Preparation of certificates of origin - EUR1;
- Storing goods under the customs warehousing procedure;
- Provision of transit operations;
- Electronic declaration;
- Tracking and keeping procedures, active improvement;
- EORI registration.

**Customs services and preparation of carriers documents:**

- Customs representation on import, export, and economic regimes;
- EX1 completion of EU goods;
- Customs representation for opening and closing of TIR Carnet;
- Preparation of all types of transport, trade and customs documents;
- Consultations on tariffication and declaration of goods at customs offices.

## Road transport

In the field of road transport, our customers can rely on complete transport from and to Western and Central Europe, Turkey, the CIS, the Middle East and Central Asia.

We maintain constant contact with time-proven companies - road carriers, with their accuracy and correctness, which allows us to offer quality transportation at optimal prices.

## Maritime transport

**AXION Total Logistic Solutions** provides ocean transportation solutions by container shipping, helping our customers to achieve an excellent balance of cost and time. Our company is a partner of best-in-class line operators and suppliers, to ensure that all shipments receive quality processing.

As a freight forwarder, we offer complete (FCL) and groupage (LCL) container shipments from port to port, from port to door or service door to door, without limitations by type and quantity of goods, geographical direction, IMO class (hazardous goods) , etc.

With our activity, we assist in the successful realization of the international transactions of our customers by offering them:

- Competitive conditions;
- Excellent transit time;
- Procedures facilitating relationships;
- Information on the movement of goods;
- Accurate documents issued.

## Air Transport

The commitment to shorten delivery times as a result of the growing competitive environment predetermines the use of air transport. The air transport is suitable for small shipments (from 50 to 500 kg.) worldwide. Your urgent airmail delivery needs will be solved through our well-developed network of partners. We will arrange your goods to reach destinations all over the world - quickly and economically.

## Groupage transport

We organize groupage transport through reloading in our warehouse to and from Central Asia and the Middle East.

We group loads to:

- Central and Western Europe;
- South-Western Europe;
- Balkan peninsula;
- Groupage transport of exhibits and fair specimen.

## Temporary warehousing

Warehousing and storage operations - Logistics hub

Customs warehousing, temporary and Community warehousing can be stored in our warehouse.

The warehouse is guarded and we take responsibility for the stored goods. The liability is fully covered by the insurance of the forwarder acting as a warehouse operator.

## Customs warehousing

Customs warehousing is a widely used regime in foreign trade practice. Customs warehousing is one of the most successful instruments in trade and fiscal policy, enabling commercial entities to have much more flexibility to meet market requirements and conditions.

In our Customs warehouse this mode allows you to store and keep foreign goods that are not subject to import duties, nor are they subject to commercial policy measures, an opportunity to postpone payment and to apply the regulation is provided /quotas, limits, licenses/ .

## Public storage

For our clients in addition to standard storage, we provide processing, loading, unloading, sorting of shipments, consolidation of shipments, labeling, and others.
